

Dover Water Treatment Plant Receives the Governor's Commendation for Exceptional Public Service

On Thursday August 5, 2010 Sherwin Smith, TDEC Project Manager and two of his colleagues were in Dover to present the employees of the Water Treatment Plant with the Governor's Commendation for Exceptional Public Service award. The award was presented to the employees for their dedication and exceptional public service in ensuring the citizens served by the Dover Water System continued to receive clean, safe drinking water during the 2010 flood. Good work guys!
